DEICHHMANN

International Expansion
Deichmann is Europe’s largest shoe retailer today. It is still a family-run business, meaning the owners vouch for the company with their name and full commitment. This concept has been successful ever since the company was founded in 1913 and will continue to be applied in the future.

Meanwhile the Deichmann Group is generating over half of its turnover abroad. Alongside Germany, the company is currently active in 23 countries. Although Deichmann is European market leader in the shoe retail industry, the company plans to continue operating as a family business and maintain its independence. Deichmann’s growth course is characterized by loyalty to its original strategy: expanding by means of its own resources. This strategy has enabled Deichmann to remain independent of stock exchanges and financial markets. The shops are not operated as franchises but remain in the hands of the company.

Deichmann is a reliable business partner in every country, with an interest in long term tenancies.
